

CBRPC Human Tissue/Serum Samples

Angiosarcoma	Injury - Drug Induced
Background Liver (varying histology)	Injury - Trauma
Cholangiocarcinoma	Metastasis - Ampullary Cancer
Cirrhosis - AIH	Metastasis - Anal Cancer
Cirrhosis - Alpha 1 Antitrypsin Deficiency	Metastasis - Bladder Cancer
Cirrhosis - Cryptogenic	Metastasis - Breast Cancer
Cirrhosis - ETOH	Metastasis - Cervical Cancer
Cirrhosis - HBV	Metastasis - Colorectal Cancer
Cirrhosis - HCV	Metastasis - Esophageal Cancer
Cirrhosis - Hemochromatosis	Metastasis - Gastric Cancer
Cirrhosis - NASH	Metastasis - GIST
Cirrhosis - PBC	Metastasis - Head & Neck Cancer
Cirrhosis - PSC	Metastasis - Leiomyosarcoma
Cirrhosis - Secondary Biliary Cirrhosis	Metastasis - Melanoma
Focal Nodular Hyperplasia	Metastasis - Neuroendocrine Tumor/Carcinoma
Gallbladder Cancer	Metastasis - Ovarian Cancer
Hemangioma	Metastasis - Pancreatic Cancer
Hepatic Adenoma	Metastasis - Pulmonary Cancer
Hepatic Cyst	Metastasis - Renal Cancer
Hepatocellular Carcinoma	Metastasis - Small Bowel Cancer
Hepatocellular-Cholangiocarcinoma, combined	Polycystic Liver Disease

This list is an example of the types of serum and/or tissue that the CBRPC has collected. Some samples may no longer be available, and we are always adding more. Please contact [Kate Smith](#) with any questions or for more information.
