PLRC Annual Retreat

The Pittsburgh Liver Research Center will be hosting it's PLRC Annual Retreat this fall at the University Club. We are excited to share that our keynote speaker will be Dr. Sonya MacParland. **Dr. MacParland** is a Scientist at the Toronto General Research Institute, and

Assistant Professor at the University of Toronto in the Departments of Immunology, and Laboratory Medicine & Pathobiology. She is also the Course Director of the UHN/U of T Training Program in Regenerative Medicine. Dr. MacParland has done seminal work in single cell mapping of the human liver with emphasis on immune cells.

The PLRC is thrilled to host **Dr. Anantha Shekhar**, Senior Vice Chancellor for the Health Sciences and John and Gertrude Peterson Dean of the School of Medicine. **Dr. Shekhar** joined the University of Pittsburgh in June 2020 and is a nationally recognized educator, basic and clinical researcher, and entrepreneur, leading all Pitt health sciences schools with an educational initiative, modeled, "impact through translation."

More information on the retreat will be forthcoming and an RSVP will be sent out via email.

PLRC Seminar Attendance

Starting next week, records of PLRC Seminar attendance will be kept. Attendance records would help address levels of engagement of our members, a criteria deemed critical by NIH.

Dr. Donghun Shin, Dr. Sungjin Ko, and colleagues publish in Hepatology

Dr. Donghun Shin, Assistant Professor, Department of Developmental Biology and **Dr. Sungjin Ko**, Assistant Professor, Department of Pathology, and colleagues, published a manuscript in Hepatology with a grant entitled, "**Farnesoid X Receptor Activation Impairs Liver Progenitor Cell-Mediated Liver Regeneration via the PTEN-PI3K-AKT-mTOR Axis in Zebrafish.**"

Jung K, Kim M, So J, Lee SH, Ko S, Shin D. Farnesoid X Receptor Activation Impairs Liver Progenitor Cell-Mediated Liver Regeneration via the PTEN-PI3K-AKT-mTOR Axis in Zebrafish. *Hepatology*. 2021 Jul;74(1):397-410. doi: 10.1002/hep.31679. Epub 2021 Jun 15. PMID: 33314176.

AASLD Summer Webinar Series

Summer Webinar Series (Register online):

All times in ET

Wednesday, August 11 at 11am-12pm

Cardiovascular Disease in NASH Patients

Thursday, August 26 at 12pm-1pm

The Use of Quantitative HBSAG in Clinical Practice

AASLD Masterclass 2021 for Early Career Investigators

"The **2021 AASLD/EASL Masterclass**, provides a unique educational collaboration of clinical, basic, and translational scientists from leading academic medical institutions from both sides of the Atlantic. Participants will attend a two-day intensive training session designed for future leaders in academic hepatology. The program will consist of academic lectures, interactive break-out sessions, individual meetings with tutors, abstract presentations and a poster session, and social events to give early-stage investigators (MD, PhD, or MD/PhD, or equivalent) the opportunity to network with world leaders in hepatology. This year's program is hosted by AASLD and will be held in the U.S.A."

2021 Gordon Research Seminars on Alcohol-Induced End Organ Diseases

"The 2021 Gordon Research Seminar on Alcohol-Induced End Organ Diseases is an excellent opportunity for trainees in labs studying alcohol-associated injury spanning in experience from early graduate students to senior post-docs to meet and build a future network of peers."
